

THE EUROPEAN RESEARCH VESSEL OPERATORS GROUP

19th ERVO Annual meeting
June 13-14, 2017

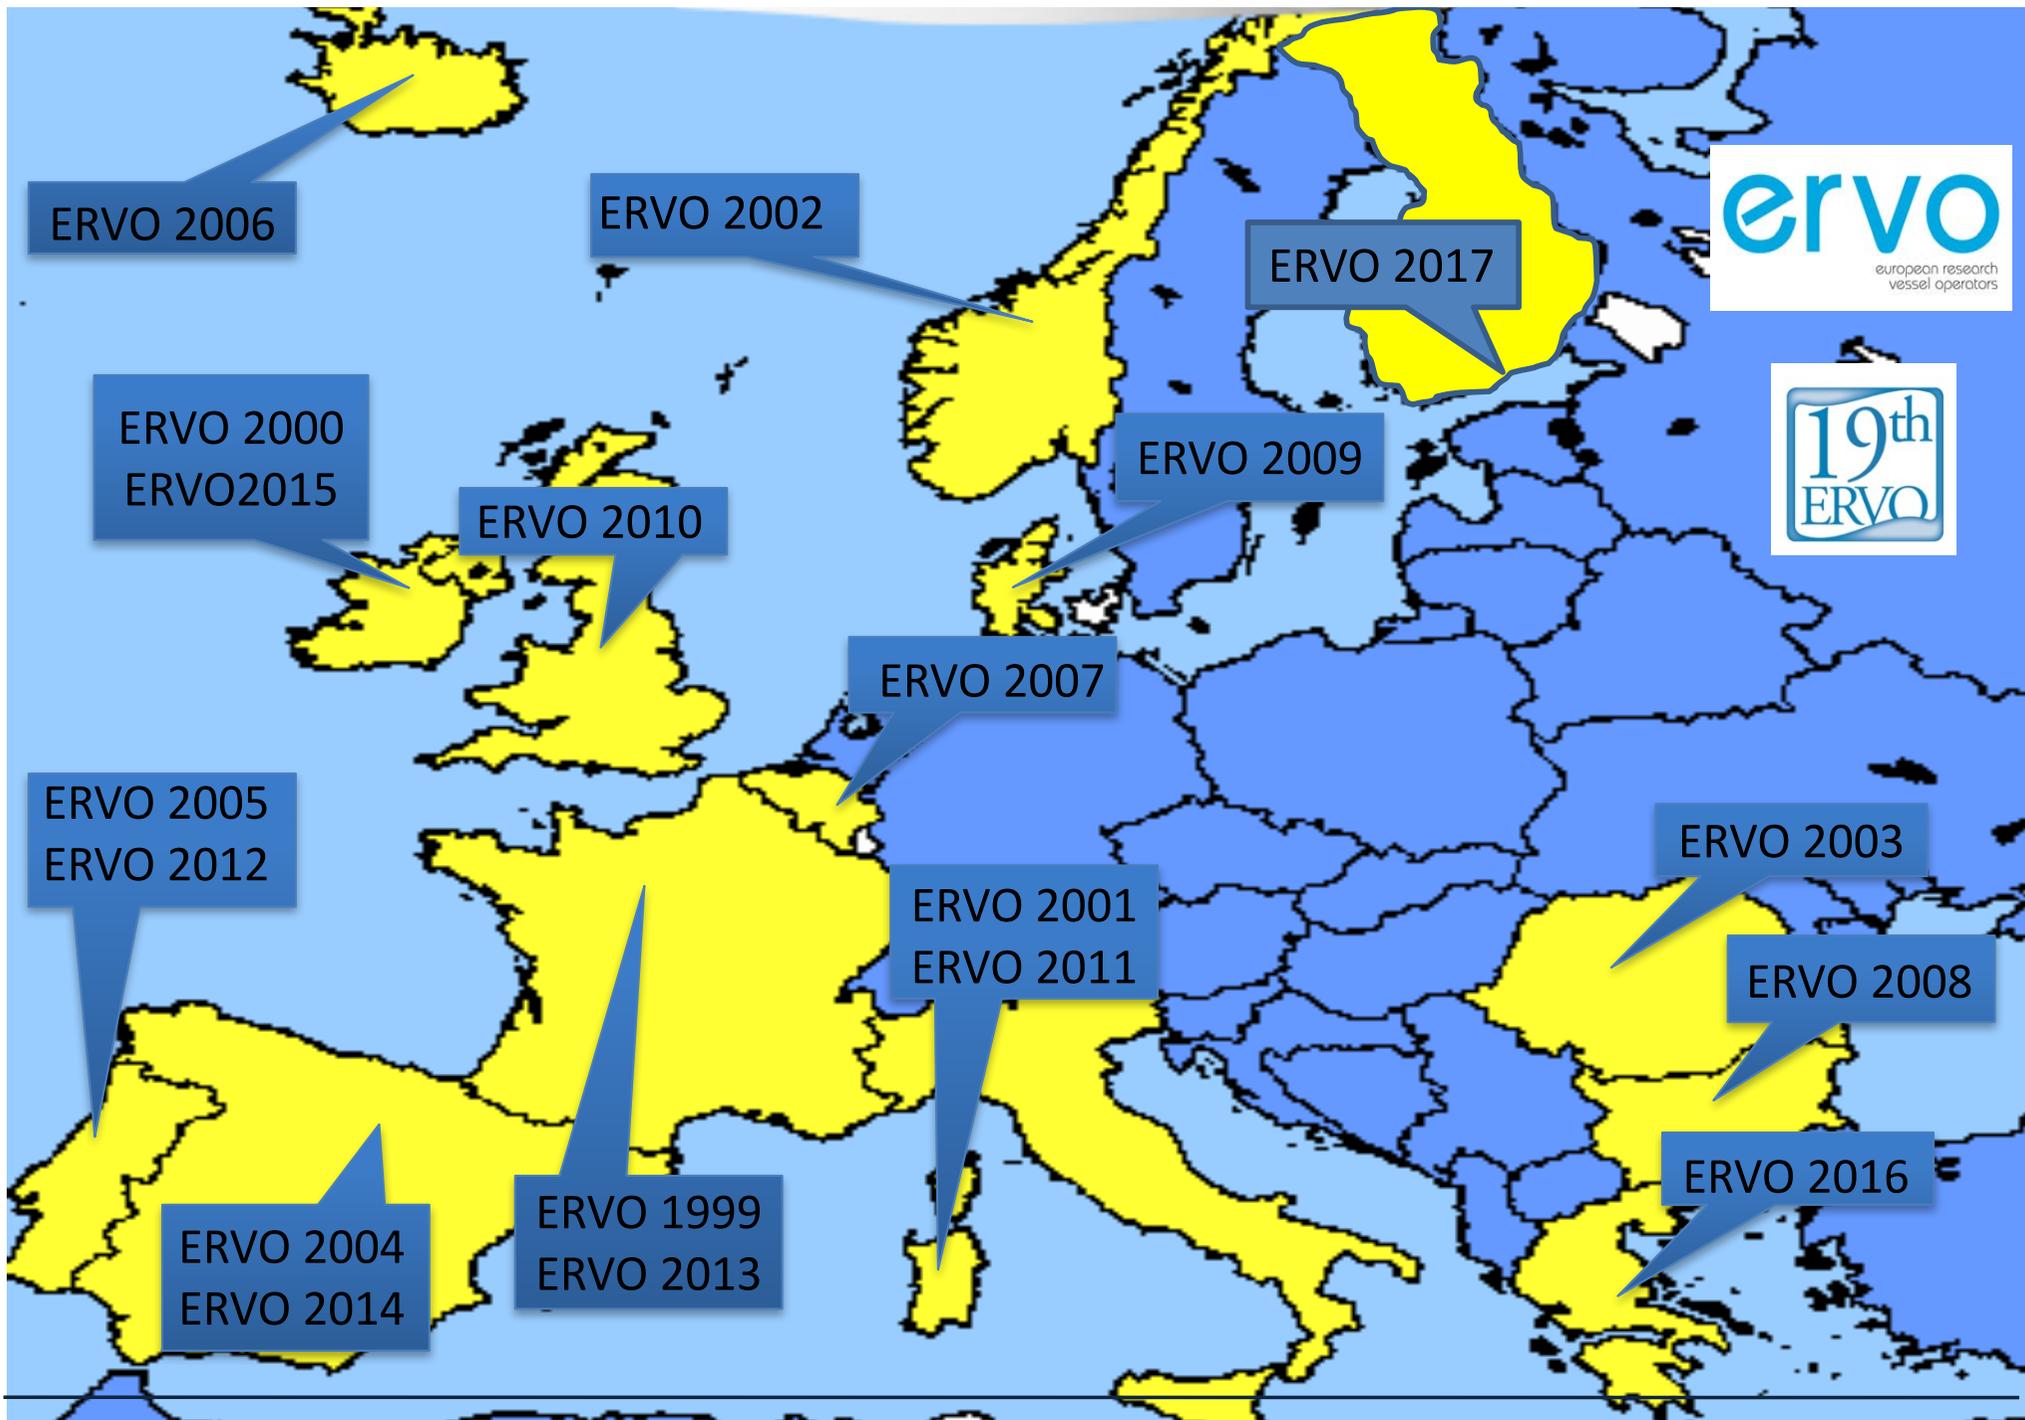

Island fortress “Suomenlinna”, Helsinki (Finland)

- ✧ **Informal pan-European long-lasting network, with no legal status and financial resources**
- ✧ **Created in 1999** as an initiative of the European Science Foundation - Marine Board (ESF/MB) as a complement to the **Ocean Fleets Exchange Group (OFEG)**, for the **co-ordination of small to medium sized RV operators in Europe**
- ✧ The number of participating countries has risen from 7 to 15, proofing to be a **useful platform for now about 50 regular attendees (50 in 2015, 46 in 2017)**
- ✧ Very useful **independent network** and its activities are entirely driven by participants
- ✧ ERVO is the **ideal focal point** for any organization in Europe looking for ways to communicate directly **with the experts on research vessels and related instruments and equipment**

To create and maintain a forum for European RV operators

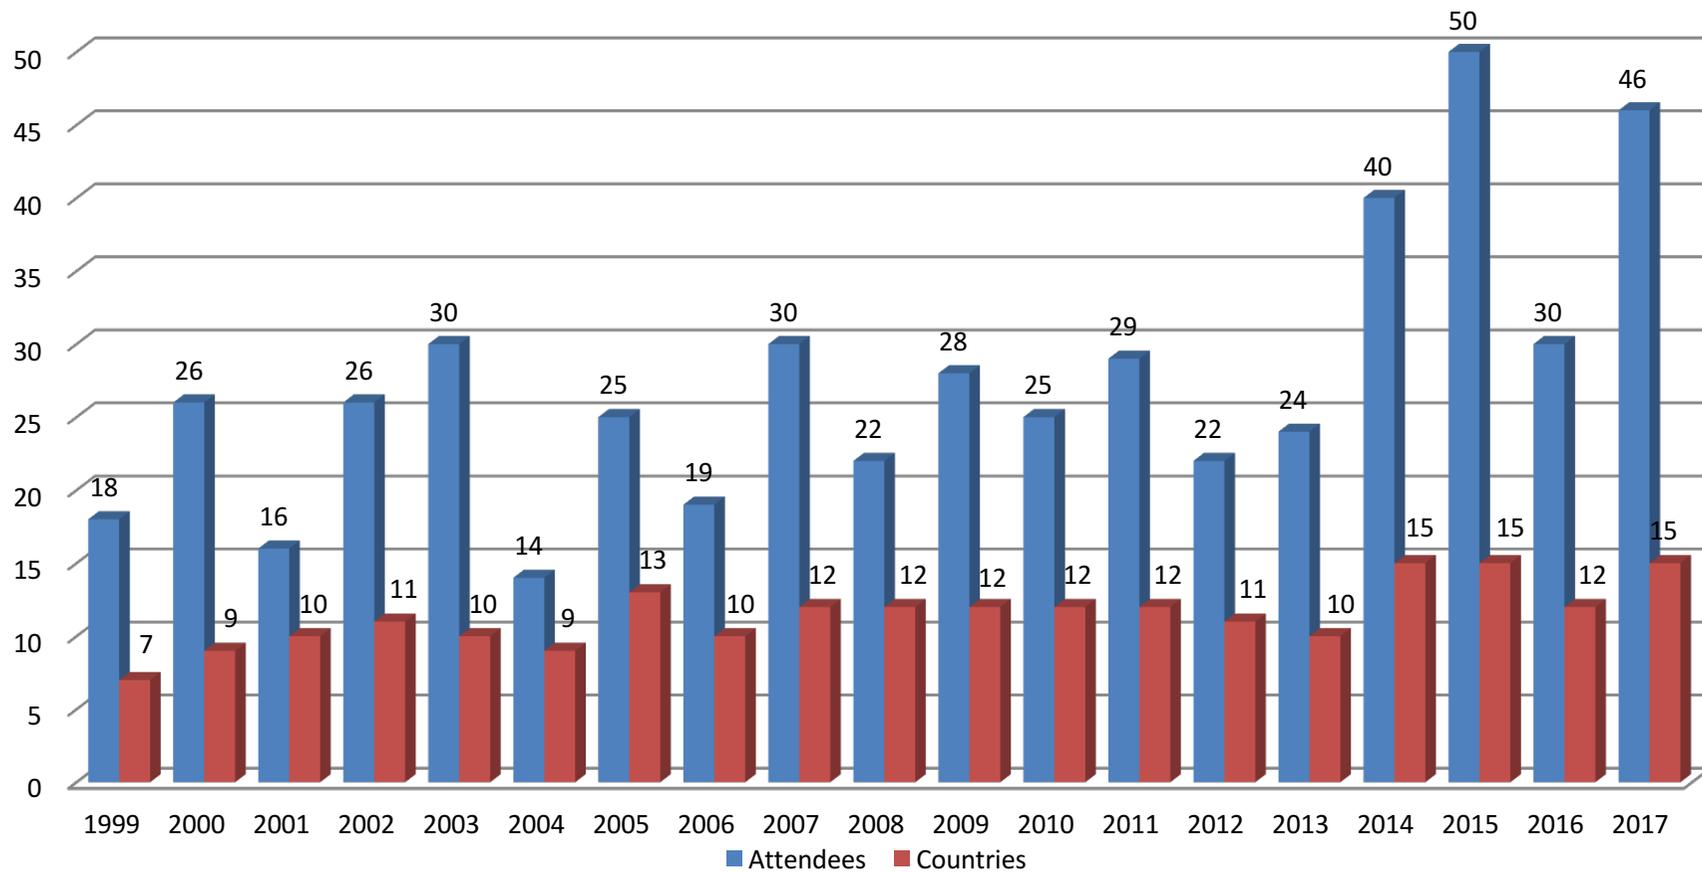

- ✧ *attend ERVO meetings where common **technical, operational, safety, environmental and legal issues/problems** are identified and discussed, and possible solutions presented*
- ✧ *contribute to the development within Europe of **best practices in the operation of RVs and associated equipment***
- ✧ *learn about **developments and plans for procurement of new RVs, equipment and instruments, and upgrades of existing ones***
- ✧ *be a member of a **pan-European network of RV operators***
- ✧ *identify **methods and ways to minimize the impact of the operations of RVs and associated instruments and equipment on the environment and marine life***

2017-2018 upcoming actions

- ✧ *End of June 2017, EUROFLEETS 2 project legacy. ERVO will have to inform Eurofleets2 management board of which part of the project legacy, ERVO is interested in, especially if a “declassification” of the EF2 material is necessary in order to be able to use these data.*
- ✧ *Second part of 2017, work to prepare the update ESF Position Paper 10 «European Ocean Research Fleets – Towards a Common Strategy and Enhanced Use», dated March 2007 in order to describe the current status and plans in Europe for vessels and equipment in addition to new requirements and demands not covered in the previous report.”*
- ✧ *To continue the “lobbying” job regarding ERVO representation in the different EU institutions/programs/projects/consortium...*
- ✧ *“To keep in touch” with the Irish Marine Institute regarding a future potential follow on Eurofleets2 project .*
