OGS is an internationally-oriented **public research institute** funded and monitored by the Italian Ministry of University and Research.

OGS roots date back to the **School of Astronomy and Navigation** founded in Trieste by empress Maria Theresa of Austria in 1753.

The Institute operates and develops its mission within the Worldwide **Research Area** at international level with particular focus on the basic and applied research fields such:

- Oceanography (physics, chemistry and biology);
- Geophysics and marine geology;
- Applied and exploration geophysics.

Located in Trieste (*Borgo Grotta Gigante - Marina di Aurisina*) and Udine
